Shah Alam, Selangor

Summary

Final-year Computer Science (Hons.) Multimedia Computing student at UiTM with a strong interest in software development, machine learning, and building practical applications. Experienced in developing web applications, machine learning projects, and interactive systems using Python, JavaScript, and C#. Enjoys learning new technologies, solving problems, and turning ideas into working solutions. Currently seeking an internship opportunity to gain hands-on industry experience and grow as a developer.

Work Experience

IT Support Intern

Oct 2024 – Mar 2025

FEDERAL LAND DEVELOPMENT AUTHORITY (FELDA) | *Persiaran KLCC, Kuala Lumpur*

- Proposed and developed an Exam Management System to streamline HR examination workflows replacing manual processes and accelerating candidate evaluation turnaround times.
- Structured HR datasets and candidate records using SQL and Microsoft Excel ensuring high data accuracy, integrity, and compliance with organizational standards
- Delivered IT support across administrative hardware and software applications, diagnosing network/system glitches and logging bug reports to maintain daily operational uptime

Education

UNIVERSITI TEKNOLOGI MARA (UITM), SHAH ALAM

Apr 2025 – Expected Jul 2027

Bachelor of Computer Science (Hons.) Multimedia Computing

UNIVERSITI TEKNOLOGI MARA (UITM), KUALA TERENGGANU

Oct 2022 – Mar 2025

Diploma in Computer Science

Skills

Programming
Python, JavaScript, C#, SQL

Web Development
HTML, CSS, React

Machine Learning
Scikit-learn, Linear Regression, Random Forest

Data Analytics
Power BI, Tableau, Microsoft Excel, Pandas

Game Development
Unity, C#, Construct 2, Roblox Studio

Tools
Git, GitHub, VS Code, Claude Code, Google Gemini

Projects

Interactive Learning System for Data Representation
Present

Tech: Unity, C#, WebGL, Rule-Based AI

- Developed an interactive educational game using Unity and C#.
- Implemented a rule-based inference engine to recommend suitable data visualizations.
- Applied object-oriented programming and game-state management.

Klang Valley Property Price Estimator
Present

Tech: Python, Pandas, Scikit-learn, Render

- Built a machine learning application to estimate property prices using location and property attributes.
- Trained and evaluated Linear Regression and Random Forest models.
- Achieved an MAE of approximately RM103 using Random Forest.

ASEAN Startup Funding Opportunity Platform
Present

Tech: React, TypeScript, Tailwind CSS, Ollama

- Developed frontend features for a platform matching startups with funding opportunities.
- Implemented responsive interfaces using React and TypeScript.
- Collaborated with a four-person team to develop an AI-powered funding eligibility platform.
- Achieved 3rd place at Hacktoberfest Hack Day Kuala Lumpur 2026.

Certificates

MBoT Certified Data Analyst
Oct 2026

AntsBees Sdn Bhd

Machine Learning with R
Jul 2026

cognitiveclass.ai

Build a computer vision app with Azure Cognitive Services
Jul 2026

Microsoft

Awards

Dean’s Award
Dec 2026

UiTM Shah Alam

Recognised for academic excellence with a Semester GPA of 3.62.

3rd Place: Hacktoberfest Hack Day Kuala Lumpur 2026
Oct 2026

- Secured 3rd place among 24 participating teams in a team-based hackathon.

•Contributed to frontend development and QA testing of an AI-powered ASEAN startup funding platform using React and TypeScript.
